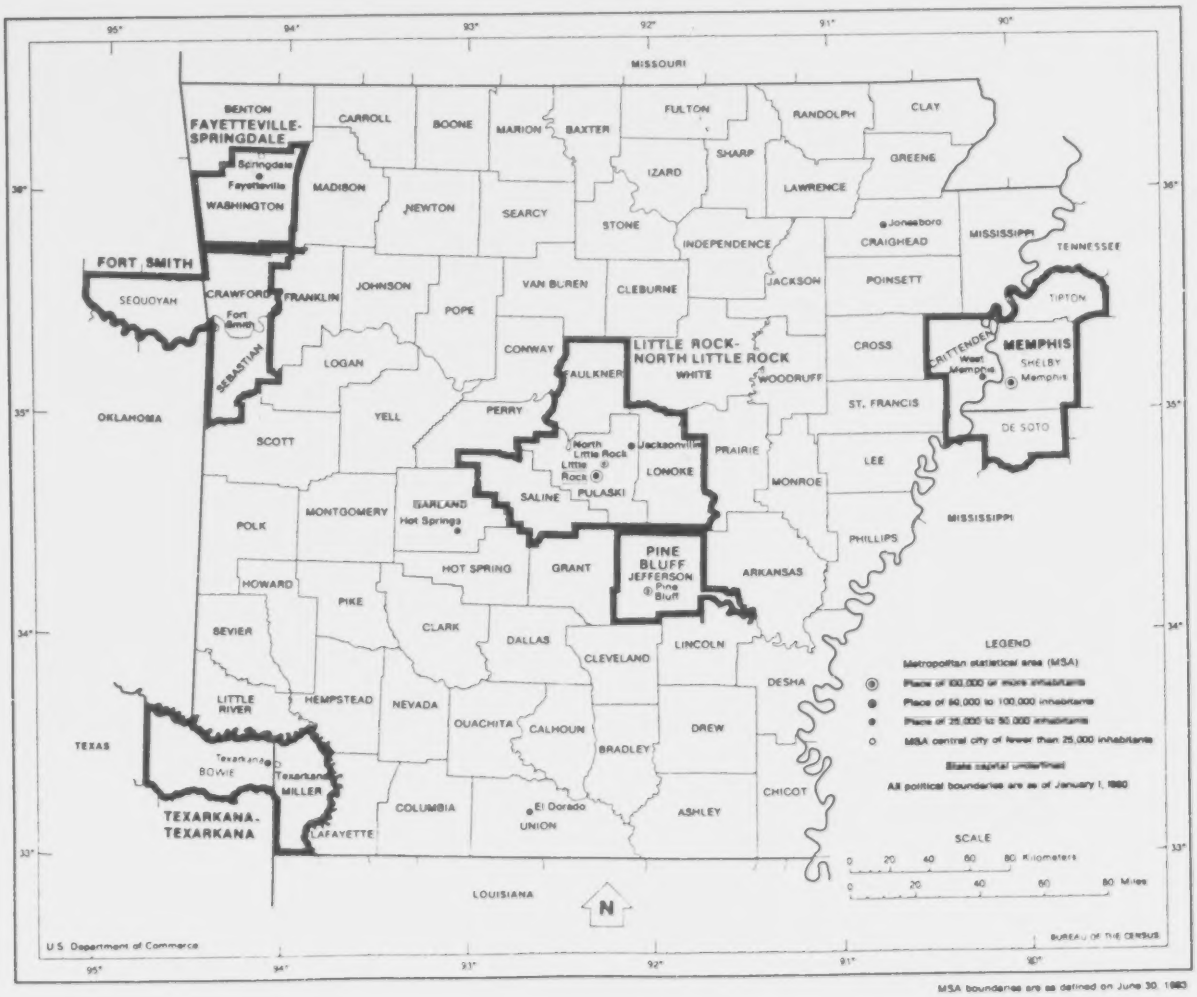
Arkansas-Metropolitan Statistical Areas, Counties, and Selected Places

The term "Standard Metropolitan Statistical Area" (SMSA) has been changed to "Metropolitan Statistical Area" as of July 1, 1983. Metropolitan statistical areas are designated and defined in a set of new standards prepared by the Federal Committee on MSAs. Under the new standards, an area qualifies for recognition as an MSA in one of two ways: if there is a city of at least 50,000 population, or an urbanized area of at least 50,000 with a total metropolitan population of at least 100,000. In addition to the county containing the main city, an MSA may also include counties which have close economic and social ties to the central county.

The map below and the tables that follow have been revised to reflect the new boundaries.



MSA boundaries are as defined on June 30, 1983

TOTAL RESIDENT POPULATION, 1960, 1970 AND 1980

Region	Census of Population, April 1			Change

N.A. — Not available. *Less than 0.05 percent.

Because of revised procedures developed by the U.S. Bureau of Labor Statistics, the employment data presented here are not comparable to previously published estimates. Furthermore, years prior to 1975 are not available.

[1] Adjusted to place-of-residence. [2] Place-of-work basis. [3] Percent of civilian labor force.

[1]"Covered" employment is employment subject to Arkansas Employment Security Law when an employer has one or more employees in each of 10 days during the current or preceding calendar year. Employment excluded from coverage includes agriculture, self-employed, unpaid family workers, interstate railroads, domestics, insurance and real estate agents who are on commission only and employees of churches and religious organizations, except schools.

[2]Starting in July 1973, state employment was brought into Arkansas' "covered" employment program, and in 1978 coverage was extended to city and county government employment (including public school employment). Thus, the 1980 and 1983 data are not comparable to the 1960 and 1970 statistics.

[3]Counties will not sum to state total because 1983 state total includes data from employers who do not provide a county breakdown of employment and payrolls, data of sales and other types of personnel with no permanent place of work, and employment data of employers with no established place of business in Arkansas.

[1]Covered employment is employment subject to Arkansas Employment Security Law when an employer has one or more employees in each of 10 days during the current or preceding calendar year. Employment excluded from coverage includes agriculture, self-employed, unpaid family workers, interstate railroad, domestics, insurance and real estate agents who are on commission only and employees of churches and religious organizations, except schools.

[2]Counties will not sum to state total because state total includes data from employers who do not provide a county breakdown of employment and payrolls, data of sales and other types of personnel with no permanent place of work, and employment data of employers with no established place of business in Arkansas.

[1]"Covered" employment is employment subject to the Arkansas Employment Security Law when an employer has one or more employees in each of the 10 days during the current or preceding calendar year. Employment excluded from coverage includes agriculture, self-employed, unpaid family workers, interstate railroads, domestics, insurance and real estate agents who are on commission only and employees of churches and religious organizations, except schools.

[2]The 1980 and 1983 data are not comparable to the 1960 and 1970 statistics because starting in July 1973, state employment was brought into Arkansas "covered" employment program, and in 1978 coverage was extended to city and county government employment (including public school employment).

[3]State total includes data from employers who do not provide a county breakdown of employment and payrolls, data of sales and other types of personnel with no permanent place of work, and employment data of employers with no established place of business in Arkansas. Hence, county totals will not equal state totals.

[1]Data for 1972 and 1977 are not strictly comparable to 1967 data due to revisions in the Standard Industrial Classification manual. Electrical supply stores, plumbing and heating equipment dealers, farm equipment dealers, and parts of hay, grain and feed dealers and farm supply stores were classified in wholesale trade in 1972. Comparable data are available for states and metropolitan areas based on the 1967 Standard Industrial Classification.

[2]Estimates by Sales and Marketing Management, Inc., New York, New York, based on updates from the 1977 Census of Retail Trade benchmarks.

[3]Revised state total.
